Mirror mirror on the wall, who's the most versatile of them all??....

Introducing Philips MiraVision Mirror TV, a revolutionary communications tool that functions as a mirror, a television and a gateway to the Internet!

The perfect complement to your home

Just imagine - a product that combines the practical qualities of a stylish mirror with the benefits of a high-resolution LCD television. Philips Miravision lets you optimize the space throughout your home and reflects your taste in quality.

Used strategically in your living room, guestroom and bedroom, the MiraVision will continue to impress you and grab the attention of your friends and guests.

Versatile. Functional. Customizable.

Philips Miravision is a fully featured Philips LCD television, incorporating a high-performance 'Super IPS' display, DCDi technology smooth, moving images, and Crystal Clear picture enhancement for sheer viewing pleasure!

Miravision is customizable to complement any room in your house, simply by changing the frame style and color. Slim in depth, it serves a variety of applications including hallways, guestrooms, bedrooms and sitting rooms.

It can also function as a desktop/workstation, so you can work or simply browse the Internet whenever the mood takes you.

Reflecting television, information, or you

As a global leader in display technology, Philips is now revolutionizing the market with this unique display solution for the home of today and the future.

MiraVision integrates the utility and functionality of a mirror with all the various viewing applications of a Philips high-resolution-capable LCD television.

Philips was able to achieve the reflective properties of a mirror, while delivering the 100% brightness of a television by combining a unique, polarised film technology with the most advanced LCD TVs.
